bamix®

of Switzerland

A HAND BLENDER FOR LIFE

UNSURPASSED SWISS QUALITY

bamix® is a Swiss quality product that is engineered to last. Every part is made from premium material and is fully replaceable.

The unique bamix® designed motor is unmatched in both quality and power, which is why it carries the world famous, bamix® "lifetime Guarantee".

All parts are sourced from Swiss suppliers who are held to rigorous quality standards.

A combination of high speeds matched to the perfect torque, allows bamix® to perform at relatively low power. The result is a virtually indestructible product with extremely high efficiency and versatility.

THE PERFECT KITCHEN MACHINE

bamix® is a versatile hand blender that can be used for much more than a food processor. With bamix®, time-consuming food preparation is a thing of the past. The hand blender is designed for modern kitchens and versatile cooking.

bamix® is popular with gourmet chefs and other food professionals, as well as those who love cooking at home. They know they can always rely on their bamix® because it's built to last. bamix® saves time, money and hassle.

Because it makes food preparation so much easier, bamix® will quickly become the most used kitchen appliance in your kitchen - from breakfast to dinner.

GUARANTEE

Unlike many other brands that are not serviceable, should a bamix® ever stop working, as from April 2020, every bamix® carries a lifetime warranty on the motor and a multi-year parts warranty, meaning a bamix® is never thrown away, they are fully serviceable/repairable and it is not uncommon to find models that are older than 40-50 years still in daily use. This is also a large part of bamix®'s sustainability and environmental awareness programmes for over 60 years.

The timeless design is based entirely on functionality and great ergonomics.

100% handcrafted

bamix®
of Switzerland

DESIGNED FOR GOURMET
CHEFS AND ANYONE WHO
LOVES WORKING WITH
FOOD AT HOME

A MULTI-FUNCTIONAL HAND BLENDER

A bamix® is much more than just a hand blender. It's an all-round kitchen appliance that can handle just about any task in your kitchen. If you have the full accessory pack, you can whip, puree, stir, blend, mix, mash, crush, chop, dice and slice.

THE BAMIX® CONCEPT IS BASED ON A FEW EASY-TO-USE COMPONENTS

- Up to 350 watts and 22,000 rpm.
- Counter top stand for a bamix® and its accessories.
- Multi-purpose blade for chopping, pureeing, mincing and stirring heavy foods.
- Beater blade for whipping whipped cream, egg whites, frappé, etc.
- Whisk blade for making salad dressing and mayonnaise, mixing light batter, making mashed potatoes, etc.
- Meat and vegetable blade for chopping meat, fish and hard vegetables.
- The powder disc is the perfect accessory for your bamix® Processor if you need to grind small amounts of spices.
- The bamix® Processor for dry and wet ingredients. It can chop hard cheeses, chocolate, spices, mushrooms, nuts, cereals, seeds, herbs, bread for breadcrumbs, onions, garlic, vegetables, small amounts of meat or fish and much more.
- Grinder for dry ingredients. It can chop hard cheeses, chocolate and spices, grind mushrooms, nuts, cereals, seeds, herbs and bread into breadcrumbs, grind coffee and much more
- Together with the bamix® stick blender SliceSy® is the perfect universal food processor. It can chop, grate, slice and grind ingredients as well as stir and mix dough.

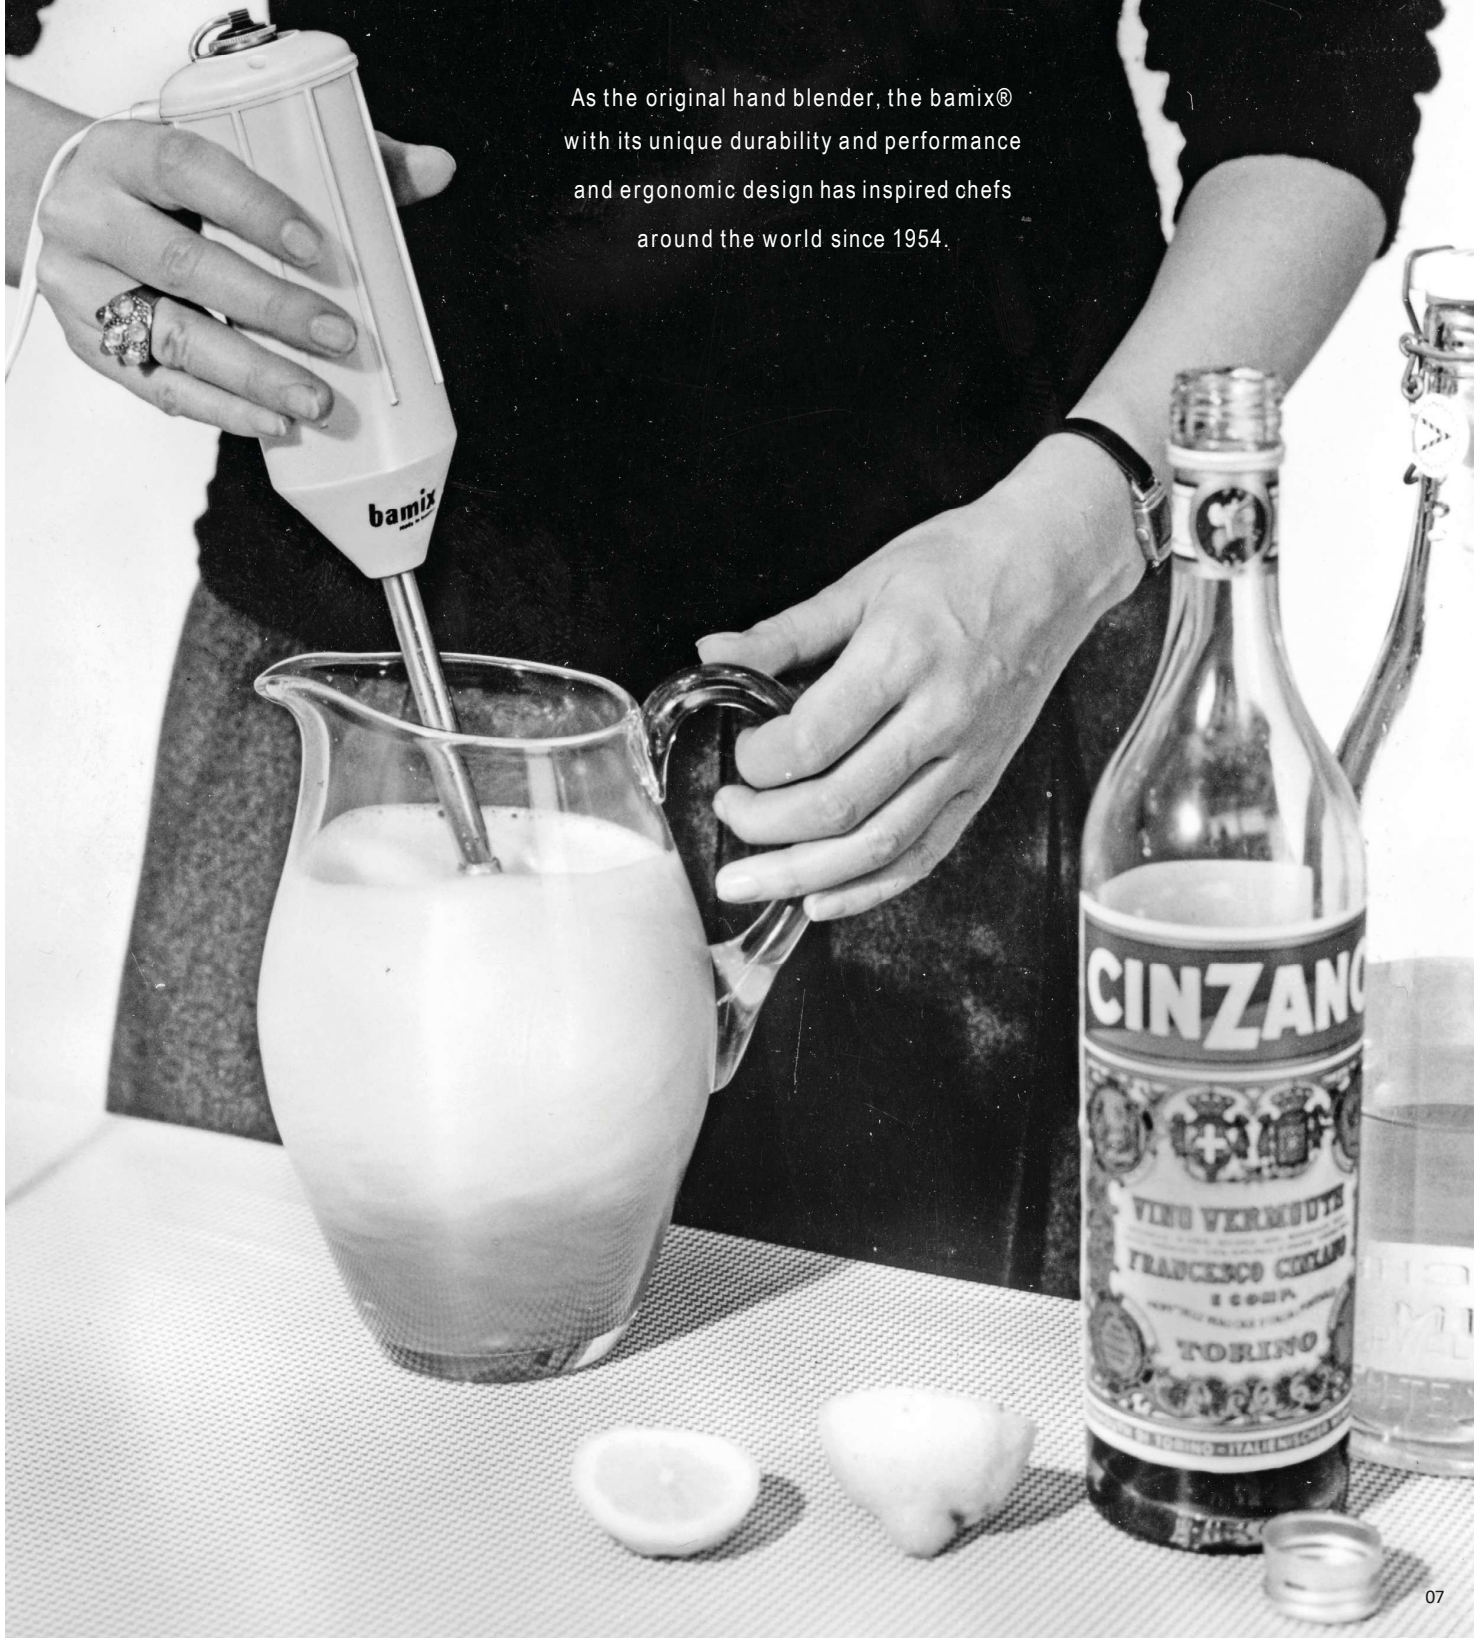

SINCE 1954, BAMIX® HAS BEEN TAKING KITCHENS ALL OVER THE WORLD BY STORM

The man behind the bamix® is Swiss inventor Roger Perrinjaquet. The first bamix® was sold in 1954 and since then it has become a faithful companion in both commercial and domestic kitchens around the world. Every year, around 400,000 bamix® products are produced at the ESGE AG factory in Mettlen, Switzerland.

After studying traditional food processors, the inventor realised the benefits of a machine that could be used directly in the containers in which food was prepared, thus eliminating the need to move ingredients from one bowl to another. He called his invention bamix®, which is based on the French words for whisking (*battre*) and stir (*mixer*).

UNIQUE DURABILITY AND PERFORMANCE

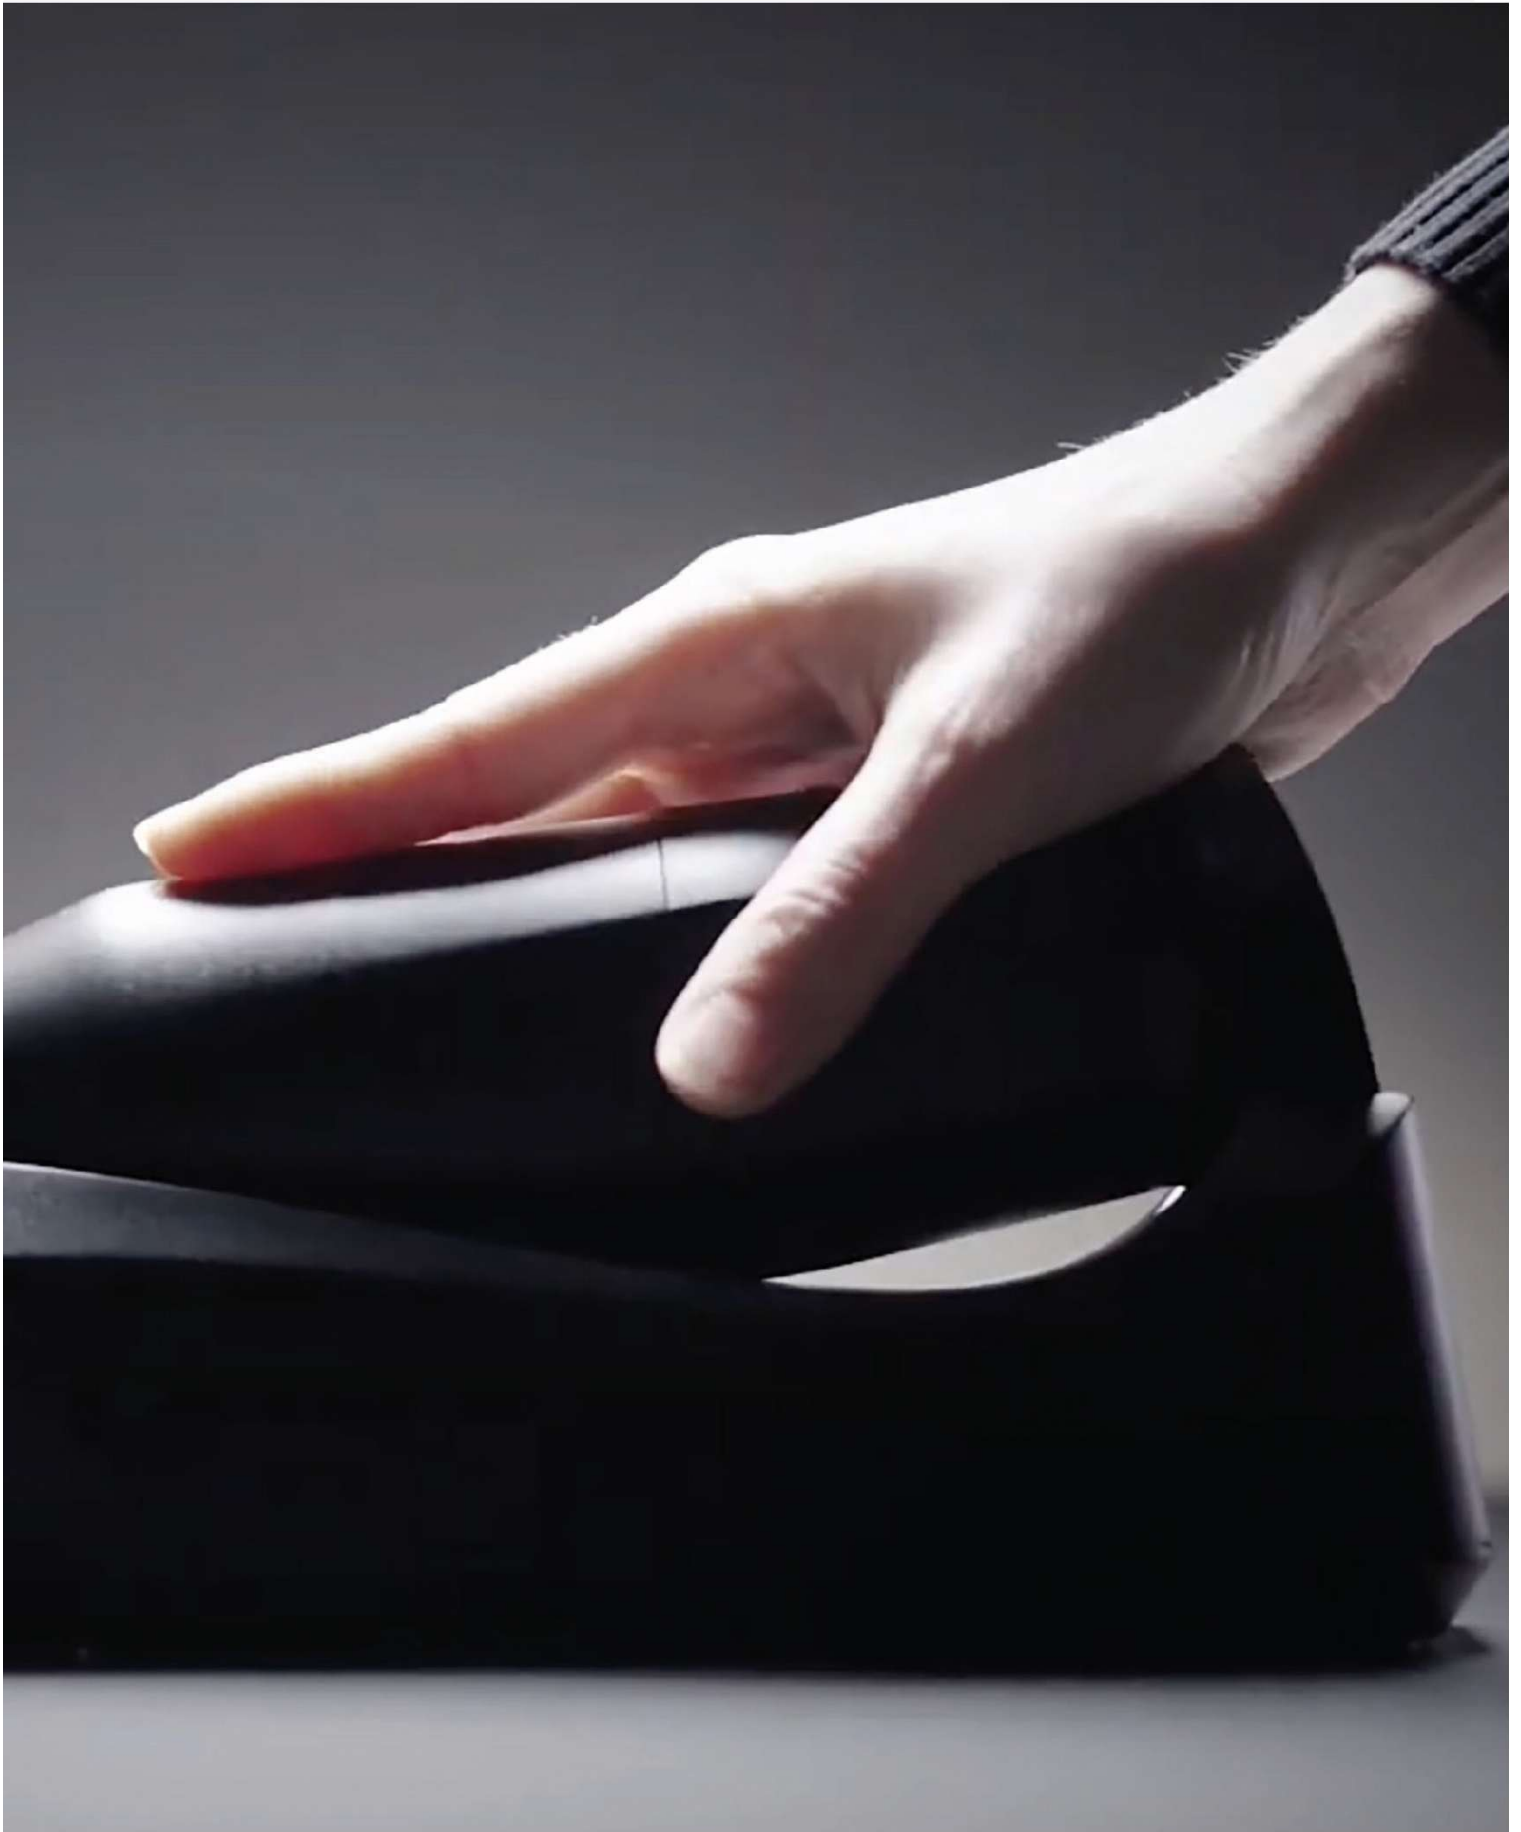

As the original hand blender, the bamix®
with its unique durability and performance
and ergonomic design has inspired chefs
around the world since 1954.

INNOVATIVE, CORDLESS HAND BLENDERS

The versatile bamix® stick blender is known for its high professional quality, powerful motor and ease of use. This also applies to the latest addition to the bamix® family, the bamix® cordless, a range of innovative wireless hand blenders.

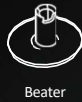

CORDLESS FOR GREATER FLEXIBILITY IN EVERYDAY LIFE

- High-end hand blender with battery that runs for up to 20 min at full speed until the battery is completely depleted.
- Sophisticated Li-Ion battery.
- Battery status indicator via LED, on/off button.
- Fast charging - max 60 min.
- Same performance as a corded bamix®.
- Multiple speed levels.
- Compatible with all bamix® accessories.
- Brushless, maintenance-free DC motor.

INCLUDED ACCESSORIES

Charger

BAMIX® CORDLESS

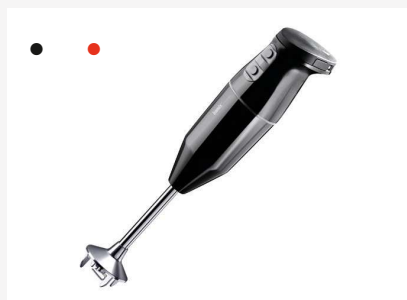

The bamix® Cordless with a powerful 10.8 volt motor provides reliable help for any kitchen task and is available in three versions: Cordless, Cordless PLUS and Cordless PRO, and in three colours, black, white and red.

All models are wireless, giving you the freedom to take your hand blender with you wherever you go.

The motor is a powerful, brushless DC motor that is exceptionally quiet. The advantages of a brushless motor over a brushed motor are higher speed, higher power, almost instantaneous control of speed (rpm), better torque and low maintenance.

INCLUDED ACCESSORIES

The product comes with a multi-purpose blade, beater disc, whisk disc, charging station and instruction manual.

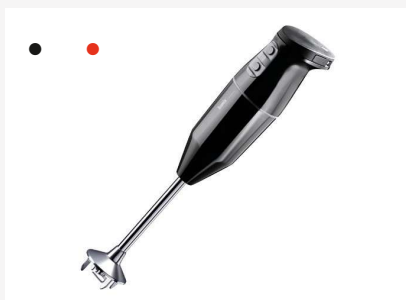

CORDLESS

The Cordless hand blender has two speed settings and a length of 36 cm.

Speed II – o/min.	14.000-15.500
Overall length/weight	41 cm/686 g

WHAT CAN YOU DO WITH A HAND BLENDER?

There's almost no limit to what the bamix® can achieve in the kitchen.

There's no task too big or small for the versatile hand blender, which in combination with the bamix® accessories make it so much more than just a hand blender.

From creamy soups and delicious marinades to chopped nuts and perfectly whipped cream, crushing ice, emulsifications in seconds, the bamix® can handle it all.

A MYRIAD OF BENEFITS

bamix® is the perfect kitchen appliance for a multitude of tasks. It is the world's smallest, yet most powerful and versatile kitchen appliance. Thanks to the variety of bamix® accessories, it is the ideal tool to help with a wide range of tasks. It can be used to chop, puree, emulsify, stir, blend, foam, grind, pulverise, grate and whip food

Thanks to its unique and ergonomically optimised design, you have a firm grip on the bamix® and can operate it with a single finger.

It can be used safely in small containers and glass bowls, as well as in hot pots on the hob. A bamix® has a double-insulated and fully sealed housing, so it can be immersed deep into both hot and cold liquids

bamix® is exceptionally easy to clean. Simply rinse under warm running water, whilst all blades are dishwasher safe. All accessories are designed to be easily attached and detached.

When stored in the counter top stand or wall holder, the bamix® is always close at hand and takes up very little space - even in a smallest of kitchens.

HUMMUS

250 g soaked chickpeas
1 clove of garlic
150 ml water
150 g tahini
30 ml olive oil
Lemon or lime juice
Spices, e.g. cumin and cayenne pepper
salt

TIP

Blend the ingredients in the bamix® jug using the multi-purpose blade until the hummus is deliciously creamy.

MANGO SMOOTHIE

1 banana
250 g mango
1 ½ passion fruit
150 g yoghurt
75 ml water
honey
Lime juice

TIP

By using the powerful bamix® multi-purpose blade, you can easily achieve the desired smoothie consistency.

BUTTER DOUGH

300 g flour
200 g butter
100 g sugar
1 tsp. vanilla sugar
1 egg yolk
Pinch of salt

TIP

The SliceSy® makes it quick and easy to mix the ingredients into a cohesive dough.

MAYONNAISE

1 egg
1 tsp. vinegar
250 ml unflavoured oil
1 tbsp. mustard
Pinch of salt
Pinch of pepper
Juice from ½ lemon

TIP

Place all ingredients in the 400 ml bamix® beaker and blend with the bamix® whisk until the mayonnaise has the desired consistency.

AVOID FOOD

WASTE

USE LEFTOVER VEGETABLES IN SOUPS OR SMOOTHIES

“Great results in the kitchen start with good ingredients and good tools. And here a bamix® is almost indispensable, because it makes cooking from scratch easier than ever.”

Tareq Taylor is a Swedish chef, restaurateur, cookbook author and TV host with a passion for food. Tareq Taylor wants to create better food experiences by cooking from scratch with 100% natural ingredients and is the man behind the design series 'by Tareq Taylor'.

Quality and durability are a big part of the philosophy behind Swiss bamix®. This means that even an old bamix® can still be repaired and last as long as you live.

NO NEED TO DISCARD MAKE USE OF IT

It's actually the same with the leftover veg you have in the fridge. They may have become a bit boring to look at and there's not really enough for a whole meal. But there is! Don't throw them out, because almost no matter what vegetables you have, you can use them for soups and smoothies.

Here you'll find recipes for a nutrient-rich soup and an energising green smoothie, both of which are super easy to make with a bamix® hand blender.

ZERO COOK ARTICHOKE SOUP 4-6 PEOPLE

200 g Jerusalem artichokes,
peeled and sliced
200 g shitake mushrooms
1 spring onion
1 clove garlic
1 bunch of thyme
1 tbsp. butter
1 tbsp. rapeseed or olive oil
1 litre chicken stock
1 dl white wine

Peel the onions and finely chop the onion, garlic and thyme. Sauté the Jerusalem artichokes, onions, mushrooms (save some mushrooms for garnish), garlic and thyme in butter and oil for one minute.

Add the stock and wine and simmer until the vegetables are soft. Blend the soup with your bamix® and keep it warm until serving.
Approx. 8-10 dl

TAREQ'S GREEN MORNING SMOOTHIE

1/2 broccoli
4 small or 2 large kale leaves
5 cm whole ginger, peeled
10 cm cucumber
5 dl baby spinach
1 whole green apple
1 whole orange, peeled
1 tbsp spirulina
3-4 dl coconut water

Blend all ingredients into a smoothie with your bamix®. Leave the apple whole, seeds and all, and just peel the orange. The mixture may seem thick, but that's how it should be. Add a little more coconut water if needed.

Bon appetit!

BAMIX® ONE

- FOR THE BEGINNER

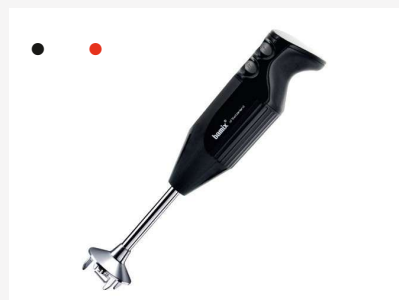

The bamix® One in red, white or black is a great choice for those who have never used a bamix® before and want to use the basic functions.

AWARD-WINNING QUALITY

THE EXCEPTIONALLY HIGH QUALITY IS UNMISTAKABLE. BAMIX® WINS TESTS AND AWARDS TIME AND TIME AGAIN, PROVING THAT IT STANDS HEAD AND SHOULDERS ABOVE THE REST.

One example is the bamix® Mono, which has performed incredibly well in tests::

- 8.5/10 points - Recommended by Tek.no
- Test winner - Politiken
- 6/6 stars - Gastronomand
- Top scorer - Klick.no
- 4.8/5 stars - Google Shopping

The great results say it all. The bamix® hand blenders are in a class of their own. They are exceptionally efficient, user-friendly and versatile, as tests prove time and time again.

SWISS BRAND OF THE YEAR 2021/22

The Swiss Institute for Quality Testing (SIQT) is behind the "Swiss Brand of the Year" award. bamix® was selected as one of the most popular brands by Swiss consumers from around 800 brands in 60 product segments based on more than 150,000 customer ratings. They were ranked based on customer satisfaction, quality and value for money. bamix® scored highly on all three parameters and received an "outstanding" rating.

WHICH HAND BLENDER SHOULD I CHOOSE?

The hand blender should be chosen based on what it will be used for.

There is a bamix® hand blender for every need, for example, Baking is the perfect choice for the baking enthusiast and BBQ is ideal for those who love to grill. If you're looking for a good, versatile hand blender, the Classic is the obvious choice

HOW MANY WATTS DOES A GOOD HAND BLENDER NEED?

It depends on what the hand blender will be used for. Although there are differences in wattage, all bamix® models have a unique and very powerful motor that can handle almost any task in the kitchen.

The Classic has a 140 watt motor, making it ideal for soft ingredients such as fruit for smoothies. If you need to handle harder ingredients on a daily basis, you can opt for a Swissline or Mono, which have a powerful 200 watt motors, while the Maxx and Gastro Pro-3 top out at 350 watts and are ideal for the ambitious amateur and professional chef. They are highly efficient and well suited for frequent use.
